The Round Oak Range

will occupy a prominent location on our sales floor again this season. For several years it has been our popular seller and we look for increased sales this season.

Yes! the ROUND OAK CHIEF RANGE is my most valued helper.

Many stove foundries sell stoves and ranges from their high grade down to the cheapest under the one factory trademark. The Round Oak Co. make but one grade and that's the best they know how to build.

When you buy any stove bearing the Round Oak trade mark you can rest assured that it's the best.

When you consider the price you get for your labor, your farm crops, your fruit or your stock, stoves are just as cheap, if not cheaper, today than they were five years ago.
